-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Culley in view of Atlas. Culley discloses the basic claimed structure including a marine mooring capable of anchoring at least one marine craft such as a boat with at least one mooring element 108, a floating body 88, spacers 24 for separating marine craft attached to the mooring. It is unclear in Culley if the mooring elements allow the swinging about an anchor. Atlas discloses a mooring for a boat dock which allows swinging about an anchor 16. It would have been obvious to a person of ordinary skill in the art at the time the invention was made to provide the boat dock of Culley with a mooring which allows swinging about an anchor as taught by Atlas to compensate for wave undulation or the tides.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Lacy shows a docking system. Sloan et al show a floating dock. Carnoy shows mooring of boats. Melin shows moorings.
